2.How to operate the App for the Malibu S unit(s).

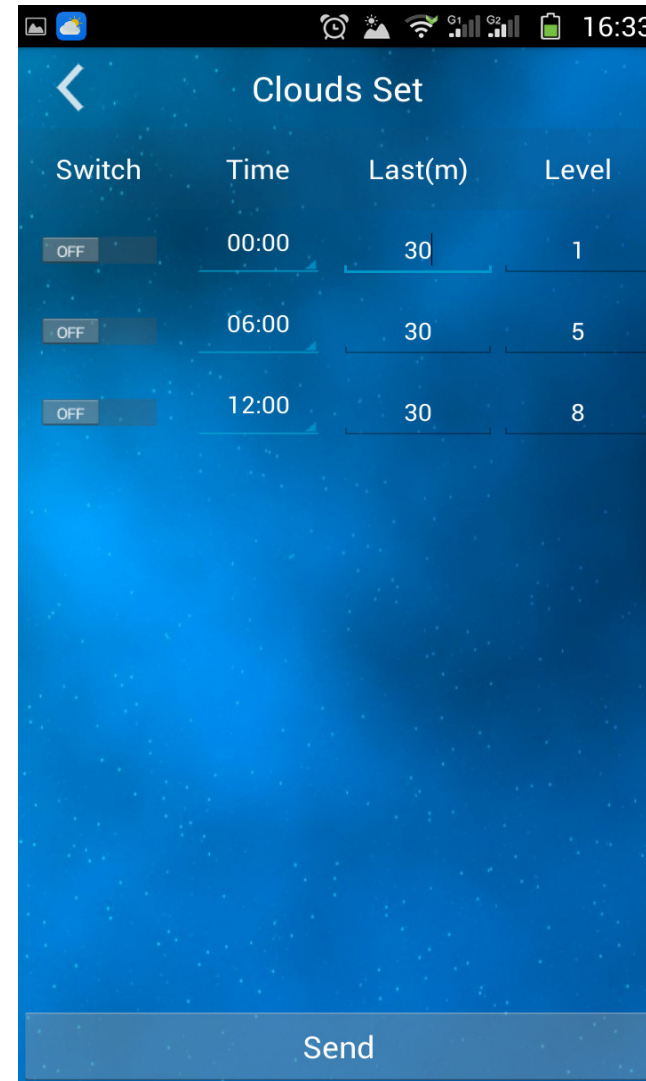

A. Manual Set

It can be dimmed from 0~100% for any single or multi channels (4 channels in total)

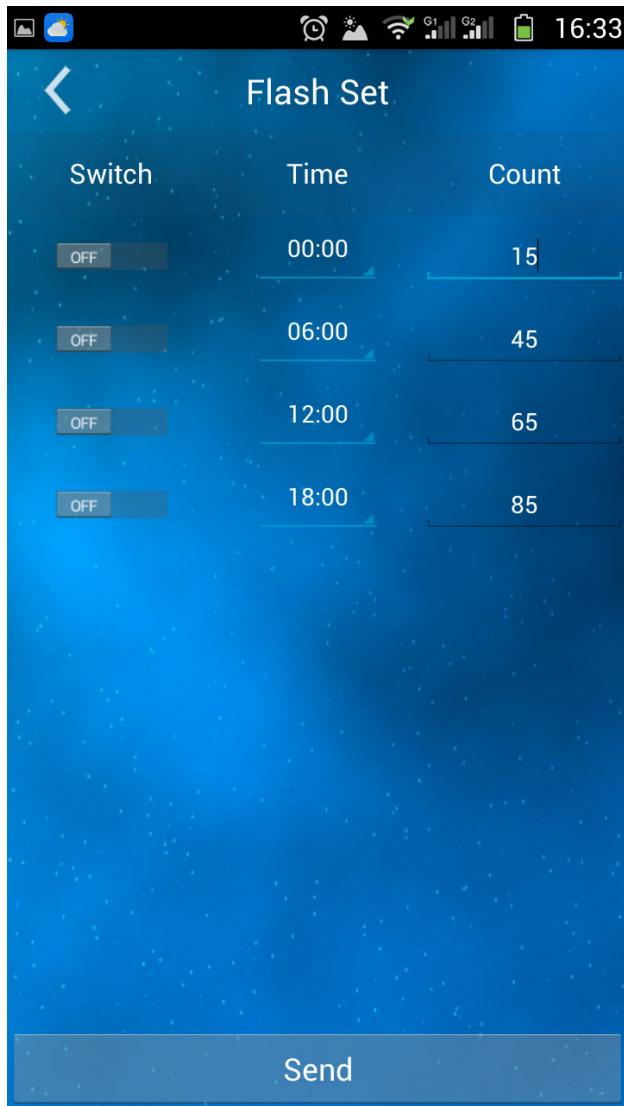

B. Clouds Set

There are 3 time points in one day time. You can set the time that cloud mode start, how long it lasts (minutes) and the level (1~9)

There are 4 time points in one day time, you can set the time that cloud mode start ,how long it lasts and the counts(1~99)

Our Ledzeal has 3 pre-set programs and you can set up more personal programs with 4 channels & 24 hours & 0~100%.

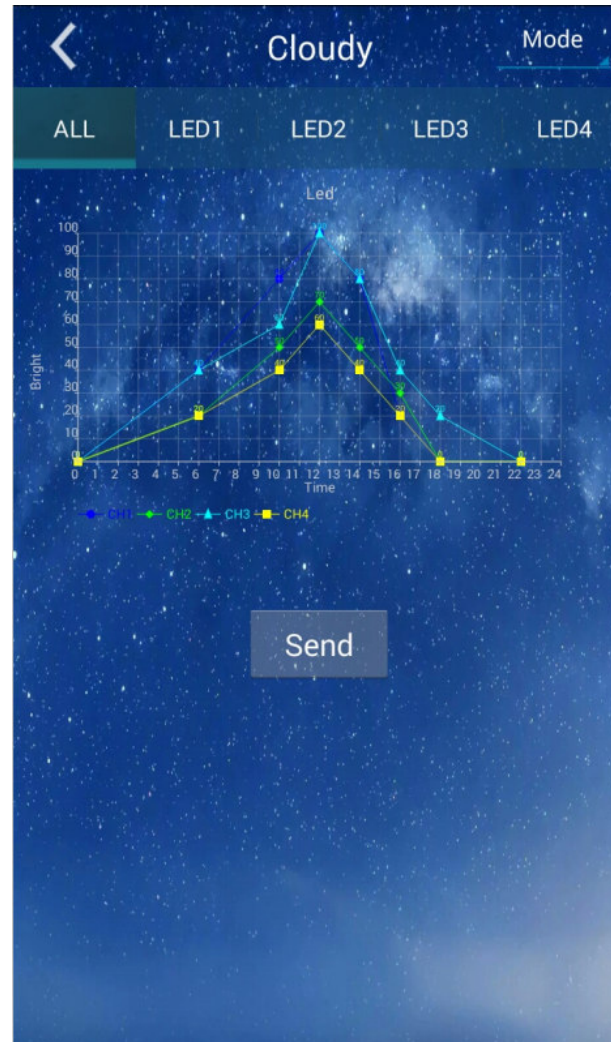

D. 1.0 The 3 preset programs details

Sunny

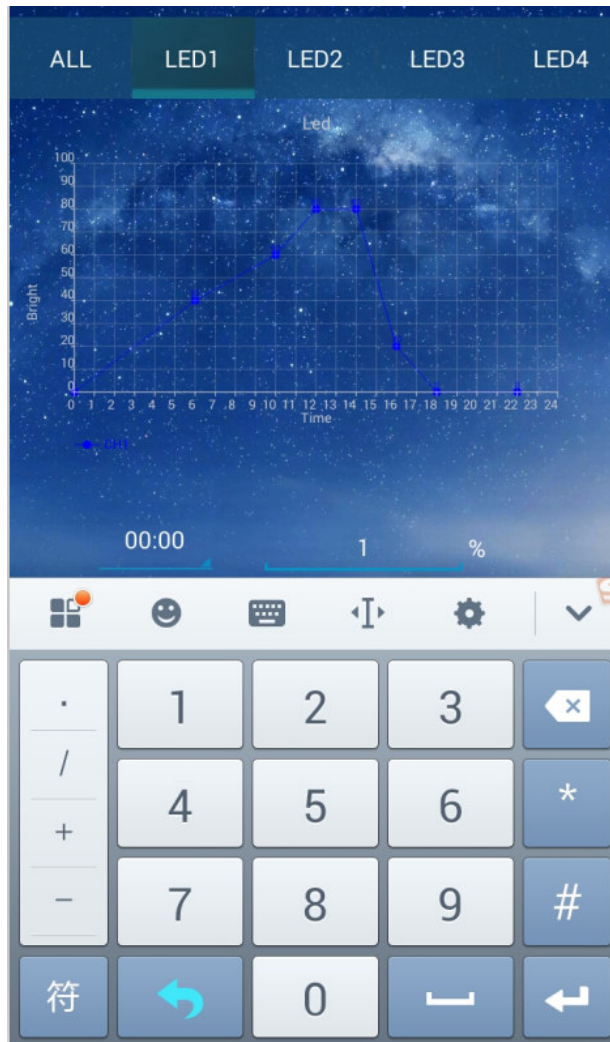

Cloudy

Rainy

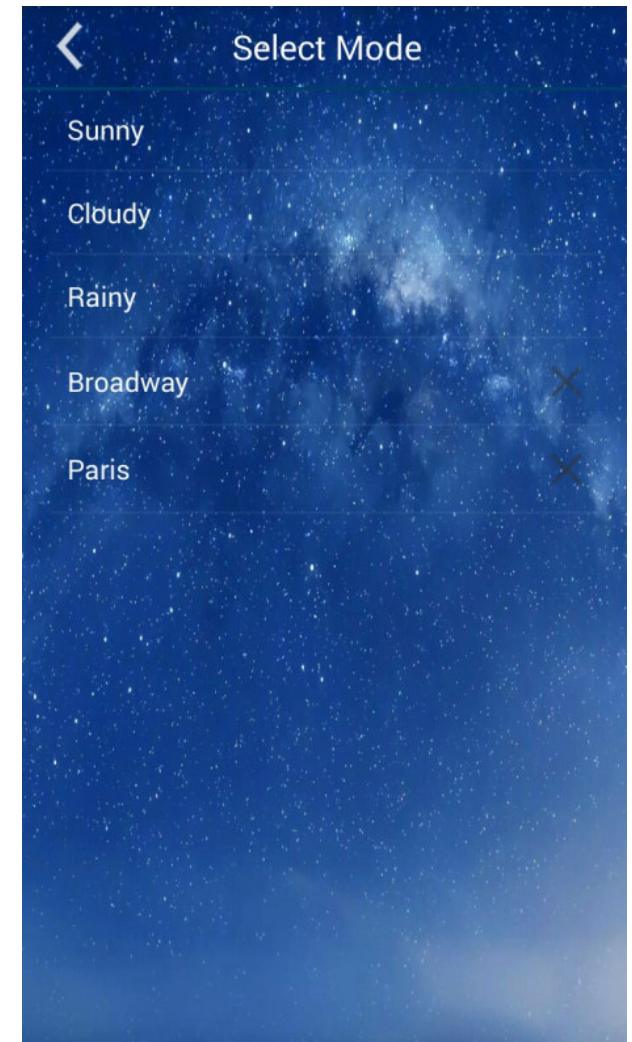

D. 2.0 Setting my program

The preset mode enable customer to change the time point and light intensity for each channel to create a new program you desired. Go back to "All" and "Sent" to confirm.

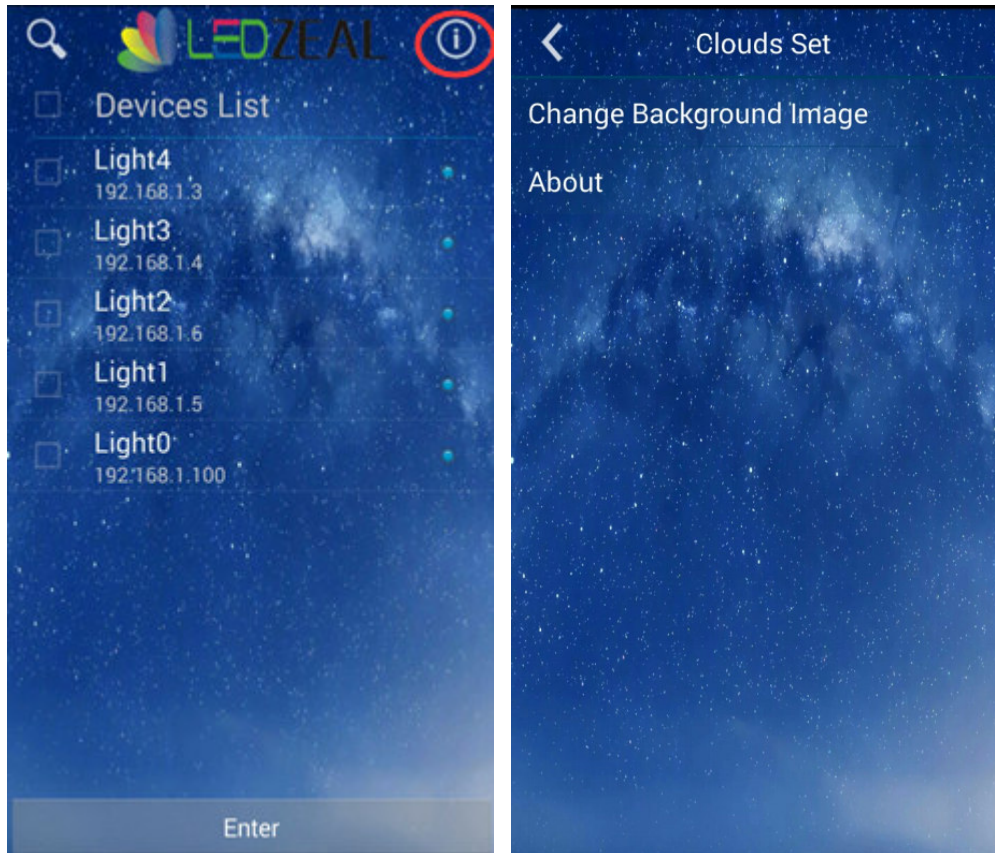

Once the program set done,you can name the program you have just created

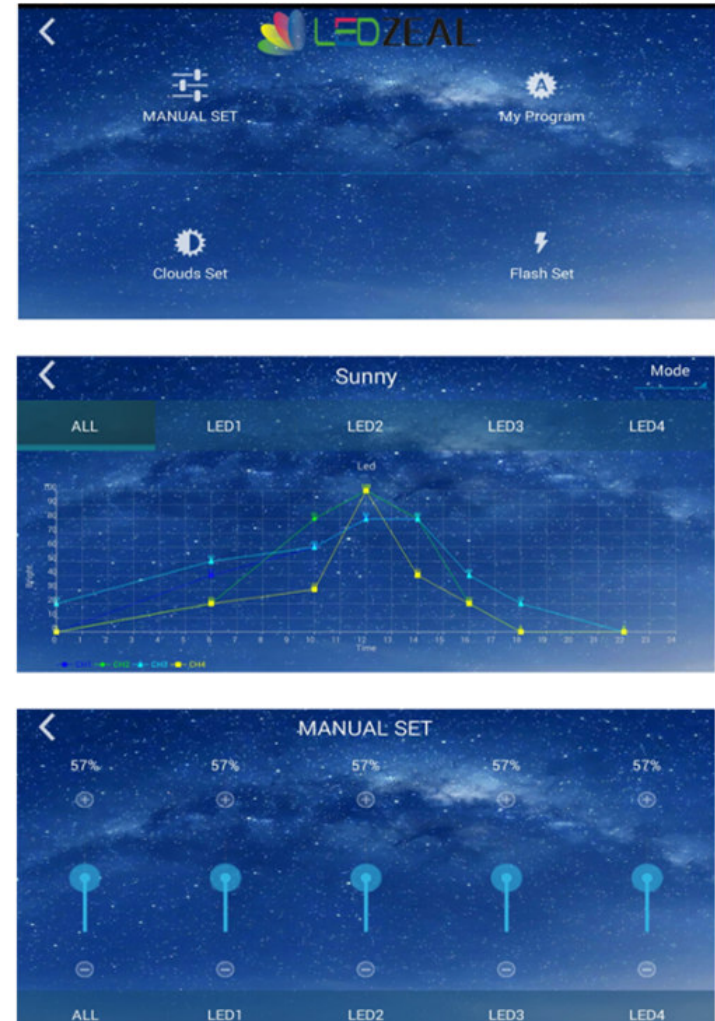

Back to the "mode" on right corner and you will find your programs and it can be deleted

3. Something more you may interested about our App

1. Change the background and see the version of the APP

2. This App is also compatible with Android Tablet Devices.
